

## INVITATION LETTER

Dear colleague,

We are very happy and honored to inform you that Recordati Rare Disease Foundation (RRDF) course "Metabolic myopathies - challenges and solutions" will be held in Split, Croatia on May 16-18, 2024.

RRDF courses have already for many years been an excellent opportunity for all those who need specific education in the field of inborn errors of metabolism. The topic of metabolic myopathies is very interesting and extremely important for metabolic physicians, pediatric neurologists, neurologists and other health care professionals who work in this field. The course is run by an experienced team of neurologists, pediatricians, geneticists, physiatrist, and biochemist specialized in neuromuscular diseases and metabolic medicine, who already contributed substantially to the understanding of metabolic myopathies. This three-day interactive course will include lectures, seminars, case reports, debates, and patient stories and is targeted both to healthcare professionals who are new in the field and to those who would like to refresh their knowledge with a variety of new information on metabolic myopathies. The course will take place in the historical city of Split on beautiful Adriatic coast.

Attached is the programme of the course and further details are available at <https://www.rrd-foundation.org/en/civicrm-event/37>.

Course fee is 350 € and it includes 2 nights in hotel AC Marriott, Split, lunches, dinners and coffee breaks during the course, speakers' presentations to take away after the course. Participants are responsible for their own travel arrangements to and from the course.

We would greatly appreciate it if you would be so kind to disseminate information on this course to members of your esteemed society through e-mail invitation and/or information on the web page.

Thank you in advance.

With kind regards,

Scientific organisers:

Ivo Barić, MD, PhD  
Department of Pediatrics  
University Hospital Center  
Zagreb  
& School of Medicine  
University of Zagreb  
Zagreb, Croatia
