

Research Opportunity for Young Adults with Any Type of Metabolic Condition

Researchers at Thomas Jefferson University are interested in interviewing young adults with any type of metabolic condition about their experiences with managing their own care.

Who Can Participate?

Anyone Age 18-28 with Any Type of Metabolic Condition

(including Fabry, Gaucher, PKU, etc)

What Happens in the Study?

People in the study participate in an interview over the phone that lasts about 30-45 minutes. People who are interviewed are entered into a raffle for one of two \$25 Amazon gift cards.
